Children's Meeting

We had lots of activities with our children this holiday; we got to interact with them during their

meeting together with the speakers who we had invited to speak to them. We also had a bishop who administered spiritual growth to our children. This was a very powerful session to all of us.

children they support. Family Bruenjes from Germany supports some of our children and came for a visit. It was an awesome

experience for the children to meet the person behind their education.

The family got to visit the children at their

homes and also had a fun day out with a lot of games before they shared lunch together. They had a great fellowship and enjoyed interacting with each other. A day they surely will not forget.

Rose's Visit to Germany

Thank you very much for the warm welcome that many of you gave our founder and CEO Rose Muiu on her visit to Germany. She came back with some great news

for RealStars. We had some children who had been in our pending list for more than two years and luckily we managed to get 17 new sponsors who are now onboard with us.

Amazing News!

Daniel Wakholi has been patiently waiting for more than two years for him to join a university, upon his waiting he has been volunteering at a children's home working with children and also speaking to our children during their children's meeting. Finally he moved to Meru University studying Medical Laboratory Science thanks to his generous sponsors.

work anymore. Joshua is a bright boy and he would really like to go to school and learn. You can help giving him this opportunity so that he can support his mother in future.

Business Seminar

We had a very encouraging business seminar in Kangemi Slum with about 14 teachers from community based schools in this area. The discussions were very active and constructive.

The teachers plan to pass on their knowledge to the parents of their schools

since most of them are very poor and cannot afford to contribute their school fees. This is a great chance to multiply the seminar program we developed so that more small scale business people can benefit from it.

Best wishes from Kenya

SPONSOR A CHILD

Joshua is a thirteen year old boy living in Ng'ando slum along Ngong road. Joshua lives with his brother Moses and his single mother, who is HIV+. He was sent home from school because the mother couldn't afford the fees. Instead of him staying at home he opted to go and beg

for money and food on the streets. His father was ran over by a vehicle in 2014 and died on the spot. His mother's condition got worse and she became paralyzed thus she cannot
