

Eustor Busolo, 15 years old

Background History

Eustor is a fifteen year old girl living in Kibera slum.

Her parents separated and Eustor was left under the care of her mother who later died in 2013. After the demise of her mother, Eustor came to live with her uncle who works as a driver in Kibera.

The money her uncle gets is not enough to cater for her education but for basic needs like food. Eustor cleared her primary education and scored 272 marks out of a possible 500 in 2014 but could not join secondary due to lack of school fees.

Her wish is to get a sponsor to be able to go back to school so that she can study and have a bright future.

Education is Freedom!

RealStars is a Christian non-profit organization dedicated to empower less privileged children through education. We experience every day that education can change a child's life. Not only do we take the children to school but we also ensure they receive mentorship through our social workers who walk along their way.

Education is a tool that can lift these children from their seemingly hopeless situation of poverty. It is one of the greatest gifts that one can give to a child, a gift that can never be taken away!
